MONEY, STOCKS AND GRAIN

Some Concessions of Note Followed the Confirmation of the Cholera.

Settlement of the Reading Trouble Engendered a Better Feeling at New York—At Indianapolis a Firmer Tone to Prices is Noted.

THE BOND MARKET.

Railroad Issues Stimulated by the New Animation in Stocks.

At New York, yesterday, money on call was easier at 3/8 per cent, the last loan being made at 3/8 closing offered at 3/8.

Prime mercantile paper, 4 1/2 per cent. Sterling exchange, 4 1/2 per cent. Sixty-day bills, 4 1/2 per cent.

The total sales of stocks were \$39,040 shares, including the following: Atchafalaya, 1,000; Chicago Gas, 5,000; Erie, 5,000; Louisville & Nashville, 3,000; Missouri Pacific, 5,000; Northern Pacific preferred, 3,000; New England, 14,000; Reading, 3,000; Richmond & West Point, 3,000; St. Paul, 19,000; Union Pacific, 5,000; Western Union, 2,000.

The stock market reflected the better feeling engendered by the settlement of the difficulties between the Reading and its employees. The bears, however, while submitting to the set-back, which they affect to believe is only temporary, did not change their ground in the least, still laying stress upon the prospect of dearer money with a continuation of gold shipment and the other unfavorable factors in the situation.

Grangers still presented a stubborn front. The drive at Northern Pacific preferred weakened the rest of the list to some extent, but there was no concession of note until the last hour, when it became known that the cholera had at last actually obtained a foothold in the city and there was a mad rush to get out of everything. Prices broke badly under the pressure, while the market became extremely active, the transactions of the last hour being of a nature exceeding those of any other hour of the day. The final changes were generally small losses, but Northern Pacific preferred is down 2 1/2, Lead 1 1/2, Erie 1 1/2, and Rock Island 1 1/2. Missouri Pacific, New England and General Electric each 1 per cent. The trading reached 305, 240 listed and 31,165 unlisted.

Railroad bonds were stimulated by the animation in stocks somewhat, but there was still little animation or feature of note in the market, and on sales of \$1,211,000 the changes are insignificant, as usual. Government bonds were dull and steady. State bonds were dull and featureless.
